EXAMINER'S AMENDMENT/COMMENTS

1. Claims 20 through 25 and 30 through 34 are allowable. The restriction requirement between the various species, as set forth in the Office action mailed on August 25, 2009 has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claims 26 through 29 and 35, directed to the various non-elected species are thus no longer withdrawn from consideration because the claims require all the limitations of an allowable claim.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Attorney Richard Twilley, Registration No. 63,359, on July 18, 2011.

3. The application has been amended as follows:

In the claims:

Claim 35, line 1: Delete "The" and replace with --A--

Art Unit: 3785

4. The drawings were received on October 19, 2010. These drawings are hereby approved.
5. The additional prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
